

# Interactive User Registration Form

## Input Screenshots:

### 1.HTML:

This screenshot shows the first part of the HTML file in VS Code. The Explorer panel on the left shows the project structure with 'index.html', 'script.js', and 'style.css'. The main editor displays the following code:

```
index.html > html > body > div.form-container > form#registrationForm > div.form-group > input#email
<!DOCTYPE html>
<html lang="en">

<head>
  <meta charset="UTF-8" />
  <meta name="viewport" content="width=device-width, initial-scale=1.0" />
  <title>Interactive User Registration Form</title>
  <link rel="stylesheet" href="style.css" />
</head>

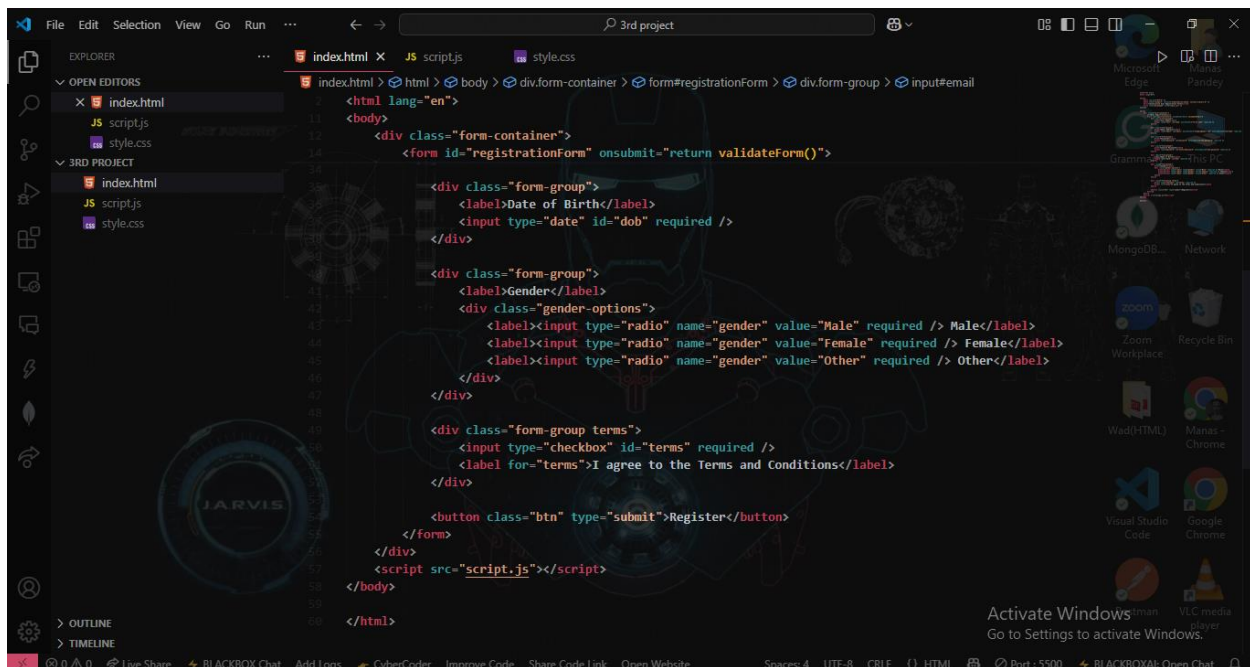

<body>
  <div class="form-container">
    <h2>User Registration</h2>
    <form id="registrationForm" onsubmit="return validateForm()">
      <div class="form-group">
        <label>Full Name</label>
        <input type="text" id="name" placeholder="First Last" required />
      </div>

      <div class="form-group">
        <label>Email Address</label>
        <input type="email" id="email" placeholder="example@email.com" autocomplete="username" required />
      </div>

      <div class="form-group">
        <label>Password</label>
        <input type="password" id="password" autocomplete="new-password" required />
      </div>

      <div class="form-group">
        <label>Confirm Password</label>
        <input type="password" id="confirmPassword" autocomplete="new-password" required />
      </div>

      <div class="form-group">
        <label>Date of Birth</label>
```

This screenshot shows the second part of the HTML file in VS Code. The Explorer panel on the left shows the project structure with 'index.html', 'script.js', and 'style.css'. The main editor displays the following code:

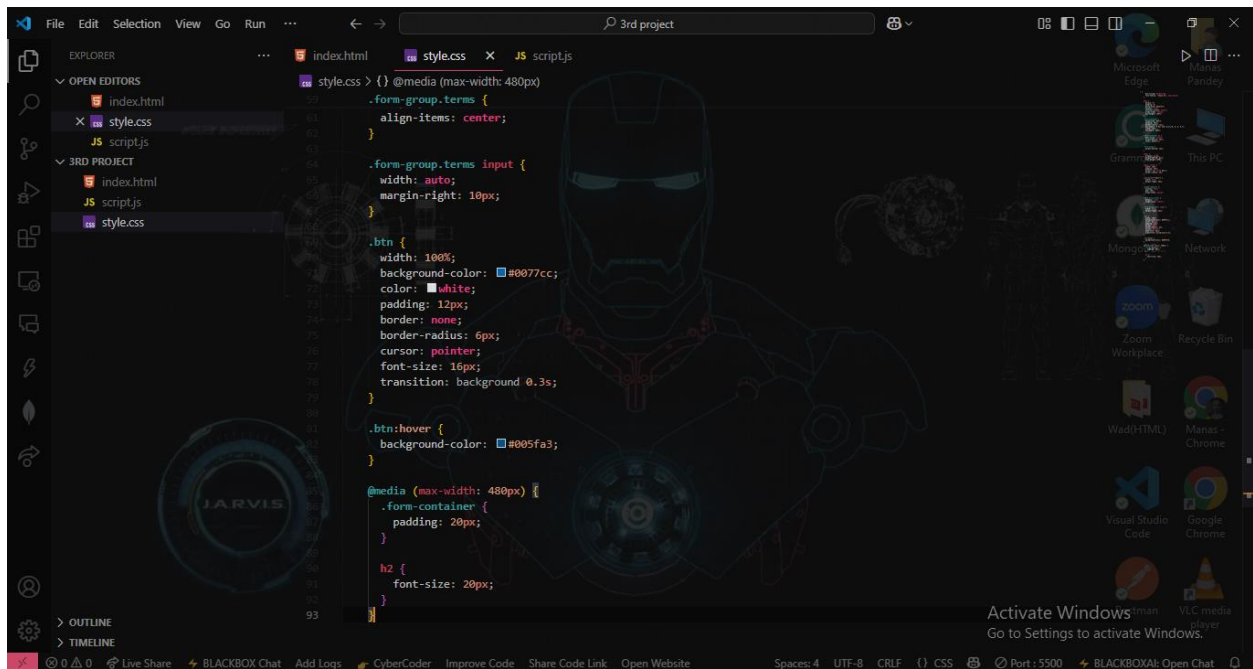

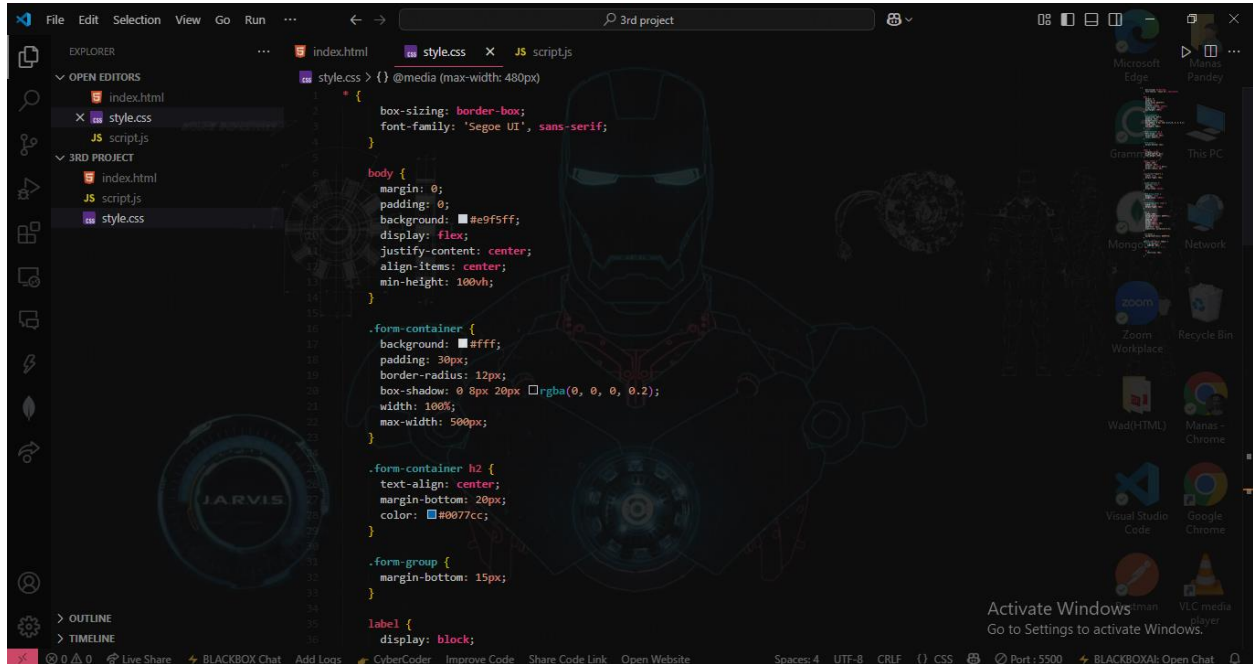

```
index.html > html > body > div.form-container > form#registrationForm > div.form-group > input#email
  <input type="date" id="dob" required />
</div>

<div class="form-group">
  <label>Gender</label>
  <div class="gender-options">
    <label><input type="radio" name="gender" value="Male" required /> Male</label>
    <label><input type="radio" name="gender" value="Female" required /> Female</label>
    <label><input type="radio" name="gender" value="Other" required /> Other</label>
  </div>
</div>

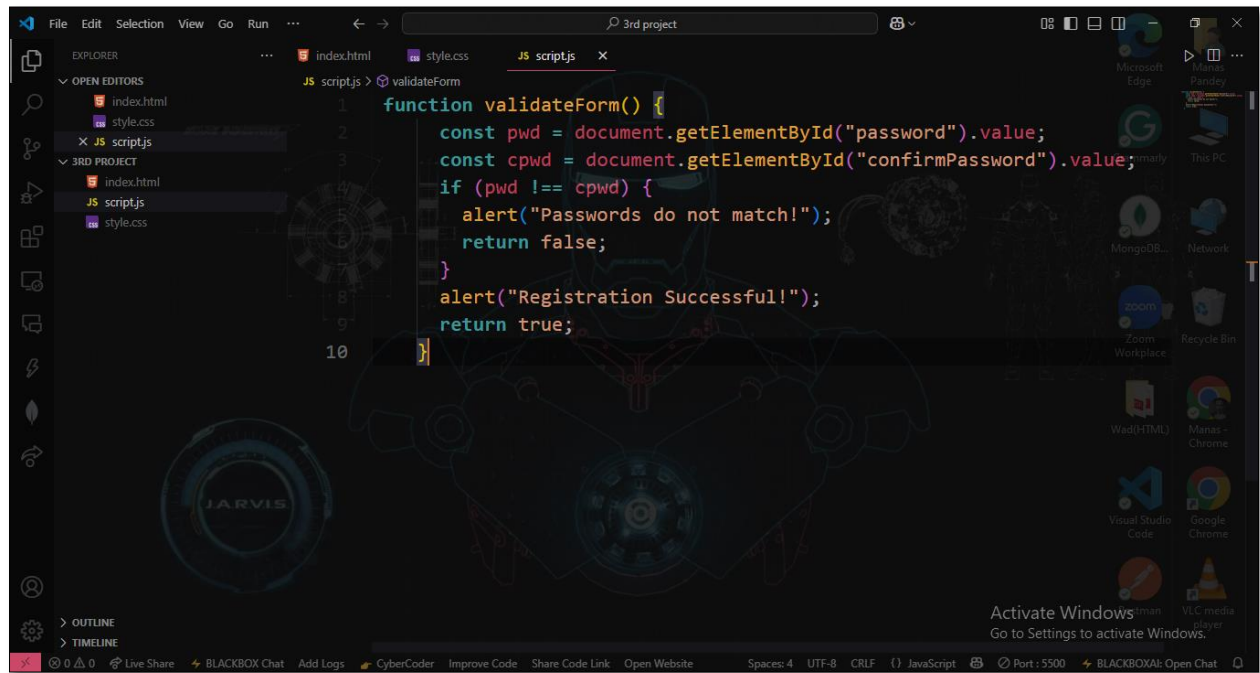

<div class="form-group terms">
  <input type="checkbox" id="terms" required />
  <label for="terms">I agree to the Terms and Conditions</label>
</div>

<button class="btn" type="submit">Register</button>
</form>
</div>
<script src="script.js"></script>
</body>
</html>
```

### 3. JavaScript:

## Output Screenshot:

A screenshot of a user registration form titled "User Registration" in blue text. The form is centered on a light blue background. It contains several input fields: "Full Name" with a placeholder "First Last", "Email Address" with a placeholder "example@email.com", "Password", "Confirm Password", and "Date of Birth" with a placeholder "mm/dd/yyyy" and a calendar icon. Below these are radio buttons for "Gender" (Male, Female, Other) and a checkbox for "I agree to the Terms and Conditions". A blue "Register" button is at the bottom.

**User Registration**

**Full Name**

**Email Address**

**Password**

**Confirm Password**

**Date of Birth**  
 

**Gender**  
☐ Male ☐ Female ☐ Other

☐ I agree to the Terms and Conditions

**Register**
